

ALI F. ABUTAHA

FAX MESSAGE

TO: Lt Col Mike Heil

Phillips Laboratory/RK - Edwards AFB

FAX NO: (805) 275-5086

DATE: July 9, 1993

Pages (including cover sheet): 1

SUBJECT: *Telecon from Dr. R. A. Corley*

Dear Colonel Heil:

I sincerely regret that the animosity towards me by some vindictive individuals at NASA has produced the unpleasant atmosphere that was apparent from Dr. Corley's call today. I had contacted your Command on the specific written recommendation of the Space Command; and this came only after I had shared specific technical information without hesitation (and without playing any "games") with the Air Force, at their request, in a long five-hours meeting. I am surprised that Dr. Corley considers Captain Neil Roble of the Wright Laboratory to be "unqualified" on the basis of a telephone conversation. In our long meeting, Captain Roble asked me very piercing technical questions and I found him to be rather keen and technically qualified. Again, I am sorry, and I pray that I will somehow succeed to further advance our aerospace programs, industries, economy and preparedness despite the continued obstructions by others.

Very truly yours,

Ali F. AbuTaha
Ali F. AbuTaha

*Finally, I reiterate
my strong disagreement*

I might add
